

Client, Event, and Human Resources Data Set

Summary of Changes

From: SFY2021 To: SFY2022

Client File

3/10/2021 **Field 5 Sex at Birth:** Renamed field from “Sex” to “Sex at Birth” to clarify. The DBHDID removed the values 3, 4, and 5 to this field starting with SFY22 and shifted those options to the new Gender Identity field. This is a self-reported data element. The unknown code can be used when the client’s biological sex at birth is unknown or the Client Status Code (field #6) = “2” or “3”.

Valid Codes:

1. Male
2. Female
7. Unknown (only valid if Field #6 Client Status Code = “2” or “3”)
8. Not Collected (only valid if Field #6 Client Status Code = “2” or “3”)

3/10/2021 **Add new field 89 Gender Identity (new in SFY22)**

Data field name – **Gender Identity**

<u>Length</u>	<u>Format</u>	<u>From</u>	<u>To</u>	<u>Fatal</u>
1	#	279	279	No

Description: This field records the client’s self-report response to the question, “Do you think of yourself as ...” (where ‘...’ equate to the response values listed below). This field identifies the client’s identified gender as most recently reported. The DBHDID starting collecting this field with SFY22 to capture gender identity through the two-question approach as recommended by the Center for Disease Control and Prevention.

Valid Codes:

1. Male
2. Female
3. Transgender Male (designated female at birth but identifies as male)
4. Transgender Female (designated male at birth but identifies as female)
5. Intersex (at birth, had biological characteristics / reproductive organs associated with both male and female sex)
6. Nonbinary or Genderqueer (identifies with or expresses a gender identity that is neither exclusively male nor female).
7. Questioning or Don’t Know
8. Not Collected
9. Choose Not to Disclose

Special Instructions:

	Error Condition	Error Action
--	-----------------	--------------

<i>General Error</i>	Invalid Code	Error reported Field set to 8 in database
----------------------	--------------	--

Update Frequency: At time of Intake. The field must be updated if the client reports a change in gender identity since the last submitted data.

3/10/2021

Add new field 90 Sexual Orientation (new in SFY22)

Data field name – **Sexual Orientation**

<u>Length</u>	<u>Format</u>	<u>From</u>	<u>To</u>	<u>Fatal</u>
1	#	280	280	No

Description: This field records the client’s self-report response to the question, “Do you think of yourself as ...” (where ‘...’ equate to the response values listed below). This field identifies the client’s most recently reported sexual orientation. The DBHDID starting collecting this field with SFY22 to promote a client-centered environment as recommended by the Center for Disease Control and Prevention.

Valid Codes:

1. Straight or Heterosexual
2. Lesbian or Gay
3. Bisexual
4. Queer or Pansexual
7. Questioning or Don’t Know
8. Not Collected
9. Choose Not to Disclose

Special Instructions:

	Error Condition	Error Action
<i>General Error</i>	Invalid Code	Error reported Field set to 8 in database

Update Frequency: At time of Intake. The field must be updated if the client reports a change in sexual orientation since the last submitted data.

Event File DMHMRS Modifier 1 (service code) and Appendix E

Changes to Appendix E for SFY2022 (see detail below)

Human Resources Data Set

No changes for SFY2022

Data Dictionary

No changes for SFY2022

Appendix C - Drug Codes

No changes for SFY2022

Appendix D - Behavioral Health CPT Codes

3/10/2021 This appendix reflects the Current Procedural Terminology (CPT) codes as published by the American Medical Association. Codes were added that are used by the Developmental and Intellectual Disabilities programs since they too are reported in the Event file.
